

The Certificate in Payroll Techniques (CPT) course provides students with a comprehensive knowledge of PAYE, PRSI, USC, ASC and Employment legislation and practices as they relate to both employers and their employees. The topics covered have been identified as the most important issues which affect employers today. Many of these topics can lead to employers having substantial liabilities because of the incorrect manner in which they are dealt with.

The course clarifies some of the most common misconceptions in relation to the operation of PAYE, PRSI and USC. If you work in payroll, if you want to work in payroll, or if you are responsible for the payroll function, you won't find a better course for your needs and you will also find that this course is extremely interesting, practical and relevant to you.

PAYE, PRSI and USC are the largest tax liabilities which most companies incur and one of the largest sources of tax recovered on Revenue audits. The best payroll software cannot compensate for the payroll operator's lack of expertise in the operation of PAYE, PRSI and USC. Yet the people responsible for the management and payment of their employer's PAYE, PRSI and USC liabilities often have to do so without the benefit of specialist training and with little or no practical support.

The Certificate in Payroll Techniques (CPT) is accredited by QQI as a Higher Education, Level 6 Special Purpose qualification on the National Framework of Qualifications.

The course is extremely interesting and practical and it provides all of the essential information required to work in a payroll function.

Certificate in Payroll Techniques
